

**APTARUS™**

# Solution Overview

## What does Aptarus Offer?

The Aptarus Learning Management System (LMS) is a cloud-based online training platform designed specifically to meet the needs of the logistics sector.

## Why Online Training?

Online training has been proven to improve employee performance. Whether drivers, warehouse staff, or back-office personnel, online training is a great addition to your existing training strategy – with proven results!

## Fuel Economy

Our unique data-driven training can deliver real improvements in fuel economy – an average of **5%** for HGV fleets in Ireland and UK.

## Safety and Compliance

For many fleets, keeping up-to-date with safety and compliance training can be a real challenge. The Aptarus LMS has a range of courses including workplace safety, food safety, GDP, and manual handling to automate the task of training your driver team.

## Driver Retention

A good online training system can help to attract new driving talent to your organization. In addition, a well-run online training program can help to retain your existing driver team.

“Online training has been proven to improve driver performance, resulting in reduced fuel costs and improved safety.”

## Telematics Integration

 **most popular**

Our LMS can connect to your telematics system, analysing all of your driver performance data – so you don't have to. Rain, hail, or shine, the Aptarus LMS will gather driver performance data and assign training automatically to correct fuel efficiency and safety-related issues across your fleet.

## Multilingual

Our training content is available in multiple languages, allowing your employees to learn in their native language. Studies have shown that this improves learner retention and engagement.

## Resource Centre

Our online resource centre provides a host of useful learning resources for your team – videos, documents, and forms. You can upload your own resources too, providing your learners with everything in one place.

## Mobile Friendly

Our LMS has been designed to be mobile-friendly, so your learners can access our world-class training from any connected device – laptop, mobile-phone, or tablet.

## Reporting and Dashboards

Comprehensive reports and dashboards make life easier for your in-house trainers and back-office staff, freeing up time and reducing costs.

## Scalable

Whether you have 10 drivers or 1,000, our LMS is designed to support you and your team.

## 24/7 Availability

Our cloud-based LMS is accessible 24/7, so no matter where or when your team want to train, our solution will be ready to support them.

## Anytime, anywhere

Let your employees access train at a time and place that suits them. Anytime, anywhere, any device.

## Specialized Topics

Developed by industry experts, our content includes specialised topics such as Good Distribution Practice (GDP), Food Safety, and Security Awareness.

## Benefits & Savings

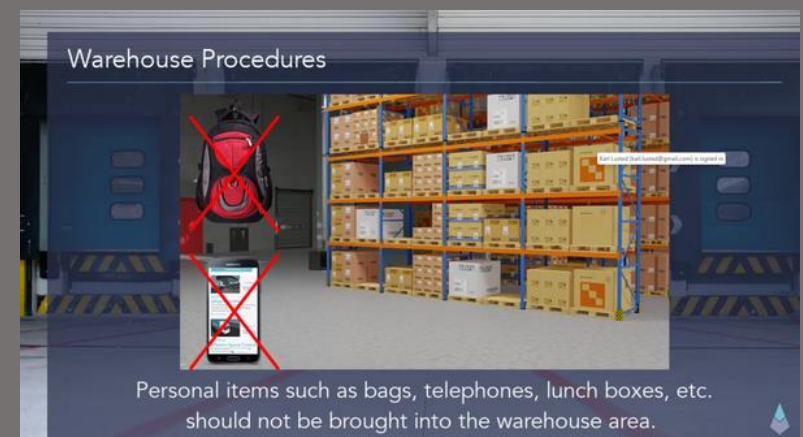

- ✓ **Fuel Savings**  
An average **5%** saving for HGV fleets (approx. **£80** per driver per month), with a corresponding reduction in carbon footprint.
- ✓ **Reduce onboarding time**  
Up to **75%** reduction in onboarding time for new hires.
- ✓ **Safety Improvements**  
A 5% reduction in safety costs can save up to **£4** per driver per month.
- ✓ **Maintenance Savings**  
A 2% reduction in maintenance costs can save up to **£6** per driver per month.
- ✓ **Reduce manual data-processing**  
Save up to **£4** per driver per month by automating the analysis of driver data from your telematics system.
- ✓ **Reduce Insurance**  
A 2% premium reduction in your insurance premium can save **£5** per vehicle per month.
- ✓ **Reduced Recruitment Costs**  
Improving employee engagement and retention will reduce recruiting costs.

"Online training increases learner retention rates by up to 60%."
